

- *Improves animal welfare*
- *Provides optimal light distribution*
- *One product with endless solutions*
- *Various product lines allow flexibility for every budget*
- *Durable design withstands harsh barn environments*
- *Fully dimmable and programmable*
- *Highly efficient LED*

BASIC

Invest in the quality of your lighting system with our BASIC product line, which offers trusted light performance.

PRO

Introduce your animals to species-specific technology with our PRO LEDs. The additional spectrums allow for enhanced performance.

MASTER - Coming soon!

Achieve optimal results with the unlimited solutions, sensor feedback, full RGB control and more offered by our MASTER series.

Next Generation Animal-Centric Lighting Systems

Animal well-being and performance, uniform light distribution, total dimmability, high efficiency, energy savings, maximum durability and lifespan of a product are only a few of the many factors needed to successfully achieve optimal results when shopping for a commercial agricultural lighting system. The SILOX LED Lighting Fixture does all that while offering an adaptable, easy-to-use design and more.

With two different technology suites available and the MASTER series coming soon, ONCE® leads the industry in animal lighting. Our well-designed systems help improve the health, growth and productivity of your animals.

BASIC

Available in bright white hues, our BASIC product line provides users with a durable, quality product at an affordable cost. Use the fully dimmable and programmable capabilities offered in this system to reduce the stress to your animals caused by sudden changes in light.

PRO

Improve both your bottom line and your animals' wellbeing with the species-specific technologies featured in our PRO lighting systems. Designed to influence desirable physiological and biological processes, animals are provided with their ideal light spectrum.

MASTER

Provide your animals with the right light at the right time with our MASTER product line. This customized solution pairs connected lighting and data-enabled insights to bring you full RGB control, optimal performance data and a new degree of functionality and potential not available in the BASIC or PRO series.

Specifications

	BASIC	PRO	MASTER
Nominal Power	22W	22W	22W
Luminous Flux	2500 lm (120 model) 2800 lm (150 model)	2500 lm (120 model) 3000 lm (150 model)	
Input Voltage	230V / 50/60 Hz	230V / 50/60 Hz	230V / 50/60 Hz
Beam Angle	145°	145°	145°
Light Output Equivalence			
Spectral Output	3000K Warm White 4000K Neutral White	White 3000K and Red White 5000K and Red White 3000K and Blue Green/Blue and Red	Programmable Recipes RGB
Operating Temperature	-10° to 40°C / 14°F to 104°F	-10° to 40°C / 14°F to 104°F	-10° to 40°C / 14°F to 104°F
Dimmable Range	Fully Dimmable 0% -100%	Fully Dimmable 0% -100%	Fully Dimmable 0% -100%
